WEEKLY CADENCE

### IMPROVING AI ADOPTION MODEL

## Your Organization's Maturity Journey

Near-term return concentrates at the Stage 2 to 3 and Stage 3 to 4 boundaries. Stage 2 is often funded through licensing you already own, new or existing. Stage 5+ requires the governance spine built in Wave 2.

### ENGAGEMENT MODEL

## Two Tracks, One Rhythm

#### ADVISORY TRACK · QUARTERLY RETAINER

### Strategy, Governance & Narrative

Owens the five-year AI strategy, three-year roadmap, initiative sequencing, governance baseline, and the board and investor narrative. Exit-ready at any gate.

#### EXECUTION TRACK · PER-PROGRAM BIDS

### Fail-Fast Pilots & Delivery Pods

Purpose-built delivery pods stand up initiatives under capped fail-fast budgets. Evidence gates decide what scales, what gets redesigned, and what gets killed.

### QUARTERLY DELIVERABLES

## What Gets Built Each Quarter

#### Q1 · Foundation

Five-year AI strategy, three-year roadmap, prioritized pilot bids, governance baseline, board narrative draft.

#### Q2 · Validate

Pilot evidence and gate decisions; first scale commitments; sharpened investor story.

#### Q3 · Scale

Proven initiatives rolled across the organization; next wave designed; architecture advanced.

#### Q4+ · Sustain

Program review against KPIs, strategy refresh, exit-ready diligence packet current at any gate.

### OPERATING PRINCIPLES

## How the Engagement Runs

#### Model-Agnostic

Certified partnerships across all major cloud and AI providers. Right model for the job, no lock-in.

#### Practitioners

Improving's teams are in client environments doing this work today. Strategy and execution share one rhythm, one gate.

#### Evidence First

Every initiative runs under a capped budget with a stated ROI hypothesis before a dollar of scale spend is committed.

### OUTCOMES

## What Your Organization Gets

- ✓ Sequenced roadmap with ROI hypothesis on every initiative.
- ✓ Decision gates that prevent deep spend before value is established.
- ✓ Governance that lets automation scale safely across the organization.
- ✓ Investor narrative grounded in pilot evidence, not projection.
- ✓ Exit-ready portfolio snapshot at any gate: Realized, In-flight, Optioned.

### WHY IMPROVING

## What Sets Us Apart

- ✓ 1,500+ practitioners shipping real work across the US, Canada, Mexico, India, and Latin America.
- ✓ Certified solutions partner across all major providers. We work in your stack, not around it.
- ✓ Ranked on Fortune's Best Workplaces in IT. We retain the people who do the work.
