

Improving — Account Overview

American Airlines

People

Casey Gordon (Director, Product Agility), Arnaud Mathieu (VP, Airline Operations Technology), Ann Moroni (VP of Operations Strategy), Anupama Vaidya (Delivery Lead), Matt Carter (Dev Manager), Misty Shafer Sterne (VP of Commercial Technology).

Current work

Staff augmentation started with a single active consultant (2007), various groups and systems running through early 2026. This reflects a scaled-down footprint compared to prior years, when Improving had multiple concurrent engagements (a full Customer Loyalty team, a DOJO technical coaching team, and a broader “AA Team” extension).

Pipeline / upcoming

No open opportunities currently.

NRG Energy

People

Muxin Li (Manager, Product Innovation), Ken Redding (VP of IT), Sabrenia Baxter (Sr. Director, Enterprise Digital), Suraiya Khoja (VP, Product & Enterprise Innovation – Technology), Juan Sanchez (IT Sr. Director), Heydi Gonzalez (Sr. Manager, Enterprise AI Governance), Victor Bulerez (IT Sr. Manager, SAP), Bill Clayton (SVP, Texas Energy & Operations), Chris Conner (Sr. Director, Digital Management), Caroline Kirkland (Product Development Manager).

Current work

Active staff aug plus a steady cadence of training and process-optimization engagements through 2025: AI DLP program delivery, Agile/PSM/PSPO training, and a Business Process Optimization engagement.

Pipeline / upcoming

This is the active pipeline: an OAM White Label initiative (estimated close July 21, 2026) and an AI Upskilling / AI for SAP Coach engagement (estimated close July 7, 2026). Both were created June 30, 2026, indicating fresh, live deal activity. Recent won work on an AI DLP program suggests NRG is actively investing in AI-adjacent initiatives, which lines up with the open AI Upskilling opportunity.

Toyota Connected

People

Shravanthi Denthumadas (VP, Mobility and Emerging Technologies; formerly Director of Engineering, Mobility), Mark McClung (COO), Garry Davis (Sr. Software Product and Platform Engineering Leader), Mahadevan Krishnan (Dev Manager), Samit Shah (Managing Machine Learning Engineer), Allen Danklefsen (Technical Development Director/Executive Producer), Dany Benjamin (Managing Engineer, Big Data).

Current work

An embedded team extended into 2026, plus an individual consultant extension. This continues a multi-year pattern of sizeable embedded teams (as many as 7-9 consultants at a time across data engineering, Java, and ML roles).

Pipeline / upcoming

No open opportunities currently.

7-Eleven

People

Eric Wulfekammer (Sr. Director, IT Vendor Management), Michelle Brigman (Cx Director), Marissa Jarratt (EVP and CMO), Matthew Ditzler (Director of Software Engineering), Nikhil Wadhera (Group Product Manager), Taylor Wimberly (Group Product Manager), Mahmood Sheikh (Exec Director, Business & IT Transformation; formerly Sr. Manager, IT Strategy & Governance).

Current work

Stable two-person staff aug presence, consistently extended since 2019 with no team growth.

Pipeline / upcoming

No open opportunities - tough environment.

Frost Bank

People

Steven Garza (Service Desk Supervisor — the primary day-to-day contact and reviewer on Improving's account review), Ayman Jaber (EVP), Jonathan Post (Helpdesk/Service Desk Manager), Nick Martinez (Service Desk Supervisor), Marie McGovern, Keith White (SVP of IT), Edward Contreras (CISO), Carl Bush (EVP, Information Systems Planning & Facilities), Justin Morrell (Director, Architecture).

Current work

Work mostly in helpdesk area - no expansion into technology at this point.

Pipeline / upcoming

No open opportunities beyond the standing help desk extension cadence.

Oxy (Occidental Petroleum)

People

Kelly Brooks (Director, IT Technology Adoption, PMO & Workforce Development), Heidi Sewell (Manager, IT Project Management Office), Yanni Charalambous (VP & CIO), Kevin Fox (Data Engineer/Product Owner on the Ipso/Nexus project), Inder Karir (Enterprise Product Development IT Manager), Richard Hu (Director, IT Application Development), Michael Pubentz (VP, Business Systems & Data), David Bowlby (VP, Data and Analytics), Rashad Flintroy (Manager, IT RPA & Integrations), Jaime Gutierrez (Director, IT Sourcing and Supplier Management), Jeremy Underwood (Director, Production Operations Technology).

Current work

Four embedded consultants extended into 2026, spanning distinct workstreams. Improving also delivered a 300-participant AI workshop for Oxy as a case study engagement.

Pipeline / upcoming

No open opportunities.
