

Monday.com — Executive Operating System

David O'Hara · Improving · August 2026

At a Glance

One workspace. Built around executive productivity, external relationships, and thought leadership. The system functions as a **fully integrated executive operating system** — from strategic goal-setting down to daily task management and automated follow-ups.

What Monday.com Provides

Capability	How It's Delivered
Strategic alignment	Goals → Projects → Work task hierarchy
Executive task management	Work board (359 tasks, automated routing)
External pipeline management	Speaking, Podcast, Event ROI — all with structured stage-gates
Relationship management	Cadence tracking, outreach drafting, CRM sync workflow
EA collaboration	Alice owns execution; David owns approvals — reflected in workflow phases
Automated data entry	AI categorizes and extracts fields on creation/update
Automated hand-offs	Status changes trigger group moves and notifications automatically
Content production	Full editorial pipeline from idea to published post
Travel logistics	End-to-end trip tracking from booking to reimbursement
Monthly accountability	Scheduled reminders for end-of-month checklists and expense reporting
Memory & continuity	AI-generated daily/weekly recaps provide a running record

Workspace Structure

Folder	Purpose
High Level	Command center — Goals and Projects Overview
Projects	All active operational boards (8 boards)
Recaps	AI-generated daily and weekly review logs (current week)
Archived weeks	Prior week recap folders (July 7 – Aug 1)
Root (no folder)	General task board, travel, and special-purpose boards

Boards & What They Do

Strategic Layer

Board	What It Does
Goals	Tracks quarterly goals with status (On Track / Off Track / At Risk). Linked to Projects Overview. Owner: Alice Mburu — 3 active goals.
Projects Overview	Master list of all projects with PM, phase, and timeline. Gantt view. Each project links back to a Goal. 5 active projects.

Personal Operations

Board	What It Does
Work	Primary day-to-day task board. 359 tasks across 8 groups (To-Do, In Progress, Stuck, Future Tasks, etc.). Kanban view. Sub-tasks via linked Subitems board.

External Presence & Events

Board	What It Does
Speaking Engagement Pipeline	Tracks conference, event, and podcast opportunities across 5 pipeline stages. AI auto-categorizes Priority and Event Type. 6 active opportunities.
Event ROI & Close-Out Tracking	Post-event accountability — LinkedIn follow-ups, CRM entry, pipeline conversion, summary. Date-triggered automations move items into close-out workflow automatically. 4 events tracked.
Improving Edge Podcast	Full lifecycle from guest outreach through production. AI extracts guest name, agenda topic, and recording date from Notes. 18 tasks.
Meeting & Conference Prep Briefs	Executive briefing docs due 24 hours before events. Two workflow phases: Training (David reviews) vs. Solo (Alice owns). 5 briefs.

Relationship Management

Board	What It Does
Relationship Cadence Management	CRM-adjacent board. 16 contacts tracked with Last Contact Date, Days Since Last Contact, Tier (VIP / Tier 1 / Tier 2), and draft outreach. Red highlight when 90+ days quiet.
Contacts Intro & CRM Sync	Tracks new introductions into Microsoft Dynamics. Flags: Added to Dynamics, Invite Synced. 5 contacts tracked.

Content & Thought Leadership

Monday.com — Executive Operating System

David O'Hara · Improving · August 2026

Board	What It Does
Thought Leadership Drafting	Full editorial pipeline for LinkedIn posts, blog articles, Forbes Q&As.; Stages from Backlog through Published. Voice Calibration reference group. 6 pieces in pipeline.

Travel

Board	What It Does
Executive Travel Tracking	End-to-end trip management. Fields: Hotel Brand, Flight Booked, Ground Transport, DFW Parking, Triplt Synced, Reimbursement Phase. Gantt view. 3 trips tracked.

YPO

Board	What It Does
YPO Board	Project and task management for YPO commitments. Gantt, Kanban, My Tasks, and Project Report views. 3 items.

Automations

Status-Based Board Routing

Board	Trigger	Action
Work	Status → Done	Move to Completed group
Work	Status → Future Task	Move to Future Tasks group
Work	Status → Working on it	Move to In Progress group
Projects Overview	Project Phase → Completed	Move to Completed Projects group
YPO	Status → Done	Move to Done group

Event ROI — Date-Triggered Workflow

Trigger	Action	Status
1 day after Event Date	Set Overall Status → Ready for Review + move to Close-Out group	Active
2 days after Event Date	Notify Alice: Add Contacts on LinkedIn	Inactive (column deleted)
2 days before Event Date	Notify Alice: Task Due in 2 Days	Inactive (column deleted)
New item created	Notify Alice: New Task Added — please set a due date	Active

AI-Powered Auto-Categorization

Monday.com AI automatically populates fields when items are created or updated, reducing manual data entry across three boards:

Board	AI Actions
Improving Edge Podcast	Auto-categorize Task Type, Priority, Guest Status; extract Guest Name, Agenda Topic, Recording Date from Notes
Speaking Engagement Pipeline	Auto-categorize Priority and Event Type on creation/update
Executive Travel Tracking	Auto-categorize Priority and Trip Type on creation/update

Cross-Board Connections

Source Board	Connection Type	Target
Goals	Board relation	Projects Overview
Projects Overview	Board relation	Goals
Work	Subitems	Subitems of Work
Speaking Engagement Pipeline	Subitems	Subitems of Speaking Engagement Pipeline
Event ROI & Close-Out Tracking	Subitems	Subitems of Event ROI
Improving Edge Podcast	Subitems	Subitems of Podcast
Executive Travel Tracking	Subitems	Subitems of Travel
YPO	Subitems	Subitems of YPO

AI-Generated Recap Archive

A dedicated archive of auto-generated daily and weekly recap documents, organized by week. Covers August 3–6, 2026 (plus all of July). Each week has both a **board** and a **document** version.

- Daily Overviews — one per workday, capturing key decisions and progress
- End-of-Week Reviews — weekly summaries with patterns and carry-forward items
- Organized into dated folders: Recaps, Week of July 27–Aug 1, July 20–24, July 14–18, July 7–11
