

Skimmer — Lunch with Jack

Monday May 18, 12:30 PM | 728 Northwestern Ave Bldg B, Austin TX | Leave by 1:45 PM (AA 2198 @ 2:46)

SITUATION

\$1.1M/year staff aug account since April 2025. 9 nearshore Improvers (peaked at 11). Oscar owns day-to-day. **This is a social/YPO lunch — not a QBR.** Jack knows the account. Be ready to speak to it. The bigger play is Mainsail Partners — PE backer, 30+ SaaS portfolio, AI-focused (Nick Olsen heads AI Labs). **Gavin Turner** is Mainsail-connected and YPO Austin Gold (your chapter) — the thread that ties both networks.

ACCOUNT SNAPSHOT

Run rate	\$1.1M/year	Team	9 Improvers (all nearshore)
Start	April 2025	Peak	11
Open reqs	4 (2x .NET, Mobile QA, Data Scientist)	Stack	.NET, QA, Data Science

RISKS — KNOW THESE COLD

- 4 performers cut in 7 months. 2 backfilled, 2 open (struggling on code challenges).
- Cost-sensitive — nearshore preference is strong. Don't drift toward onshore pitches.
- 2 open backfill positions (.NET + Data Scientist) — active problem, not resolved.

KEY PEOPLE

Person	Role	Notes
Jack	CEO	Your contact today — YPO peer
Evan Fort	CTO	Strong ally, economic buyer. Dallas-based, may be on-site
Glenn Burnside	SVP Engineering	Heavy ops influence. Austin-based
Andrew Wilcox	VP Product	Weak relationship — worth developing
Nick Olsen	Mainsail Head of AI	Owns AI Labs. Must be ally, not competitor
Gavin Turner	Mainsail / YPO Austin Gold	Shared chapter — natural bridge to Mainsail network

TALKING POINTS

On the account:

- "Oscar keeps me in the loop — the team is doing well. The open positions have been tougher than we'd like, we're working it."
- If 4 losses come up: "We hold a high bar — quality over volume, that's the trade-off."

On their roadmap:

- "You're pushing into new service categories and international — big surface area. Where's the most energy right now?"
- "We're seeing teams move fast on AI-assisted dev. What does that look like for your engineering org?"

On Mainsail (if the moment is right):

- "How connected are the portfolio companies on strategy vs. running independently?"
- Soft plant: "We're doing interesting work on AI adoption at scale — would love to connect with the right people when timing makes sense."

YPO angle:

- Shared chapter: Gavin Turner, Brett Hurt, Matt O'Hayer, Dave Robshaw (also Regional Board, Area Officer). Natural peer bridges if the conversation goes there.

LISTEN FOR

- Budget pressure or contract renewal timing signals
- Jack's visibility into the 4 performer losses — his reaction = relationship health
- Any mention of other vendors or competition on the account
- Mainsail portfolio introductions — if offered, take it and flag Oscar immediately

MAINSAIL — THE REAL PLAY

Improving as **preferred AI delivery partner across 30+ portfolio companies** — workshops, DLP rollouts, developer training. Nick Olsen runs AI Labs (Workshop → Pilot → Scale). Oscar is already talking to Nick. **Align with Nick's agenda, don't pitch around it.**

LOGISTICS

12:30 PM	Lunch with Jack @ Skimmer HQ
Address	728 Northwestern Ave Bldg B, Austin TX 78702 — ring doorbell
Parking	First half of lot or street
Issues?	Kaz — 203-644-6411
1:45 PM HARD	Leave for airport → AA 2198 @ 2:46 PM

POST-LUNCH: FLAG OSCAR ON

- Any signals on open headcount / account risk
- Any Mainsail introduction or reference — Oscar needs to know immediately
- Any mention of Andrew Wilcox (VP Product) — weak relationship, worth developing
